I bought a 250-4 from a guy in CA but thanks for getting back. I might be interested in the pedal though if you want to sell it.
Jake

I got the 250-4 amp. Now i'm power hungry. Do you know of this expansion module that works with any 250 series amp to hook up an powered extension speaker system?

hard to find these, i wish you luck! I have only found 1 in the wild. BUt I have converted a 4x12 and a 2x15 when I found the power modules for sale.
