Hi,

I'm looking for a non-working but cosmetically good+ to excellent tuck and roll head for a project I'm working on. Black tuck and roll only. Any black tuck and roll flat faced head approximately 8 inches high by 24 inches wide would work.

Shoot me an email with price and we'll chat.

Thanks,
Steve

You are only looking for a K200 not a K250 as they are metal faced and slanted.

I'd like a nice black K200 head cab without the guts. Anybody got one ?

Start watching E-bay and Craigslist and you will find one. There are some on e-bay from time to time.
