
Subject: To keep my CTS speakers or swap out.

I just picked up a K200 B-1 with 2x15 cab with CTS speakers. The guy I got it from put aluminum domes on the speakers to get the faux JBL look. I have a pair of Eminence CB15's and a pair of E140's. I'll probably dump the CTS speakers in a fender cab and off to guitar center peddle it.
