Hi...Believe it or not, I work at Kurz-Kasch. There are some old timers there that have knobs from the past at home. If you need a knob, send me a pic. I can show them and if they get around to it, Maybe they can dig a few up....Worth a shot???

Chip

Hey, I need two knobs for my Kustom Lead-III from 1977. I do not have a picture, because my camera doesn't produce a usable one.

But you can google for "Kustom Lead-III" and look for the model with the silver plate behind the knobs.

Would be great, if you still have that connection!

Hi I am looking for dark red 3.4" Kurz Kasch knobs as used on some models of the Heathkit 10-14 oscilloscope. It is a classic dome-head design without the silver insert.

Thank you!  
David Monroe
