Just picked up my first Kustom! It's a K200-1. Unfortunately it's got a few problems. Anyone have a schematic and manual for it? Also, how can I decode serial number to know manufacture date (S/N: 20881).

Thanks all!!!

Hi,
The production date for SN 20881 is 1/18/68 plus or minus about 3 weeks.

Thanks for the quick response! Now on to fixing the amp...

Thanks again-
