Les, here's the info for my Frankie...

L 795 RV (Reverb Vibrato)

Serial: 12604

By the way, how much are covers worth for Kustoms? (200 head and cab)

Hey Shaun,

What color is it?

It's cascade. It's a nice head. I'm thinking of pairing it with the red cab, just for now, until I can find something else for it that matches.

Thanks Les S. How do you date these serial numbers? Do you have a chart or website?

An aside; I found a red K-200A-1 matching head and cabinet on craigs list in very clean condition.
Do you know what a fair price is for the rig?

Thanks.

Oh, I forgot. The model number on the red one is 2-15C-1. I've never seen a number like that.
Would that mean a 200 with 15 CTS inch speakers and no effects?
