Can someone please give me the dimensions of the chrome ports?
ID and OD?

Thanks.

They are a different size between amp groups.

The K100s and K150s use one size and the 2-15', 3-12" and 3-15" cabinets uses another, so what do you have?

The K 100's please!

Thanks.

Here are the Kustom port sizes:

K100 ports - 2 1/2" ID / 3 1/2" OD

K200 ports - 3 1/2" ID / 4 1/2" OD
