The time has come for me to thin the herd a bit. I have too much stuff and too little space. No sense having stuff just sit around. I am not trying to make money from this, just recover what I paid for these items.

To be clear up front: This is pickup only; I don't want to get into packing and shipping. Come by the house (I live just north of Milwaukee) and I'll give you a cold one and help you pack it up. Cold, hard cash is the way to go.

I'll show a representative photo of each item here, and a brief description. E-mail me for more info. Serious inquiries only, please.

OR

If you have a K200A-4 in good condition, or a left-handed Gibson Les Paul Custom, we can talk about trades. Those are the only barter possibilities.

J895RV S/N 5820 \$100 Top head in this image (Frank)
Believe the reverb needs work; never really used this at all.

K200A-1 S/N 19619 \$100 Middle head of three
Smoked when I plugged it in, so could be DOA or for parts.

K200B-1 S/N 42493 SOLD

K200-3 No model/serial number plate \$100 + \$100 for cab
A little beat up, but functional. Someone has unsuccessfully tried to jumper the functions so they work without a footswitch. Needs some TLC, as does the cab, which has mismatched speakers (one is CTS) and replaced grille cloth. No casters.

K100-1 S/N 25368 and
K100-1 No serial # \$725 for pair
An absolute sweetheart and I hate to part with it. The matching head and cab were bought locally and had belonged to someone who evidently never let them see the light of day. Pretty much mint condition. The black head is a backup and also works fine.

K50-2 S/N 68874 \$250

Another one I just haven't used much. Has cover too.

K150-6 S/N 80735 \$300

Works fine. Tuck-and-roll is a bit flattened on top and has some indentations from whatever sat on top of this for a while from previous owner. Another impulse buy of an amp I really didn't need. Also has cover.

Two 4x12 towers \$100 each

Bought locally on another impulse buy recently. They looked so good I just had to do it, though I have no real use for them!

Do you still have the Frank head and K200A-1 in the middle that smoked when you powered it up?

Do you still have any of this stuff? Particularly the white sparkle K100 head and cab (and black K100)

All gone. But the K100s are at Cream City Music in Milwaukee now. Check 'em out; they're good people there.
