Sold! please delete....

I've had the amp since 1982, and hate to part with it, but want it to go to a good home.

K250-4 head (all efx)
2x12 cab. Look to be original Square magnet speakers
Shiny Tuck and roll
a few cuts on top of the cab
corners worn, tolex is thrashed... there, I said it!
missing one chrome port, name plate...
Head is in perfect working order
Replaced power cable with new 3 prong ground
no cover
no pedal

Los Angeles area sale

Do you still have this? I am in Eagle Rock. Could I see it or do you have pictures? Does everything work? What do you use for a footswitch / volume pedal? What area of LA are you in?
