Hi all. I have a small venue I am putting together in Tulsa and wanted to use some vintage sound gear. I thought the look of the Kustom PA's would be perfect for our small setting. I am not too particular on the color/age, but am looking for a complete and working system. I understand that the 600 series is kinda rare, but the four cabs would work well for our in the round setup. Any leads would be appreciated. Thanks!

Give me a call 918-724-9241. I have a black 300 and 2 4-12 cabs setup. It would be good for small venues. 600's are hard to find. I almost had a Blue 600 from California I won on Ebay but it was stolen before he could ship to me...sniff. I also have the earlier 400 that will run 4 cabs like the 600's willGive me a jingle and we'll go from there.

Craig
