I picked these up a few years ago, but now I have a couple of kids and my hobby has to downsize.

Early 70's K200B1 and 3x15 CTS cab, black tuck n roll. One speaker needs a recone and was replaced with a generic 16ohm driver. I have the blown CTS in a box if you prefer all original and will take some off the price if I keep the replacement driver. Rig is a little ugly but plays nicely and is damn loud. \$300. I can deliver locally to the DC area for time & gas money.

Mid 70s 1-L 1x12" 30w non-tuck n roll guitar amp. Cleanish, missing a knob, plays decent. Great gritty-chimey CCR cleans. Vibrato is a little slow. \$80, can deliver.

Pics soon; am holding a baby...
