I may have found a amp head from a 2 speaker K150 2 speaker combo amp. It's cabinet is shot and the amp head is by itself. It's from a tuck n roll combo that had the earlier bigger puffier tuck n roll. Are the pots, reverb tank, and other parts the same as a 1969 K100C-8 4x10?.... thanks.

Yes, some of those parts are interchangeable.
