Cabinet is pretty torn up, cuts tears. Grill okay but dirty. Casters bad. Ports average. Emblem average cond. Handles broken. Williamsburg, OH Speakers good condition. I can't upload any pics here. I can email them if interested.

Sounds like you'd be ahead scraping it out for parts. Your speakers are worth a decent price I would think if in good shape. Handles, bass ports, casters (maybe), emblem all will sell on ebay. Not sure what your speakers are actually worth, but guys on here will know. Price your asking, I think is pretty steep considering the T&R sounds to be rough and its the generic black. Good luck.
