For sale; a pair of vintage Kustom PA cabinets. These now have New Eminence horn drivers and new crossovers (originally just had a low freq blocking capacitors) . They had 12" speakers and a previous owner recut them to 15", I've installed a very good pair of Peavey Scorpions. Also, made new jack plates and new wiring. There is a bit of damage to the covering and grill cloth, I have new grill cloth for them. The castors are original, as far as I know, and the plastic inserts in the handles are not broken (they usually are). I need \$500 to break even on these . Located in Fayetteville, AR , 479-856-8054 , call me for more details or the set a time to check them out. Email me, at guitarampsky@juno.com, for photos.
