Anybody know where to find any Woodson info? I've not stumbled across anything on line yet, but figured the relationship with Kustom/Bud Ross might have some leads on here. I've just found this cool cab, but it's not the traditional 2x15 that I recall seeing back then nor even recently.

Has an opening running the width of the cab. Could be a "W Bin" as indicated in the Model #2-15 WB. Who knows, but it looks pretty cool and I'd love to add one to my collection. Thanks.
