Does any body know how much the 745 and 795 PA's are worth in Black? Both have foot switch and reverb. Thanks!

Difficult to tell without more information. Both model numbers are either the K200A or K200B series. Which series? Are you selling just the amps or are there speaker columns involved? Condition will play a big part in placing a value. Cig burns, cuts and tears will drop the price. All channels working? Loud pops, hiss or crackles? Any evidence of modifications, extra jacks or switches.

Kustom offered the black in two versions the dull flat black, and a shiny wet look black.

Are you selling a pair or willing to separate? Are you willing to ship?

Do you have an email address that I can send photos to? Everything works. I'm interested in selling the 4 channel head and two columns. It's more flat black but has a sheen. I will ship. No burns tears etc.. I'm willing to settle on a reasonable offer not trying to get rich but I know it's rare and I can't find anything online that is in this good of shape. My band is in the studio and I want to sell to purchase specific equipment.
