I have for sale two JBL "CABARET" cabinets. No speakers.....there was a 15 in each of the cabinets. There are two bass ports and an opening that has been blocked where a tweeter could go if wanted. Have been told that these are bass cabinets but see if a tweeter was installed, could be used as PA as well. These cabinets are solid and heavy. Grille cloth is in perfect condition. Exterior has some scratches and scuffs but will paint up nicely since there is no tolex covering on these cabinets.....just painted plywood with the bumpy texture. They are stackable and have the spring loaded handles and the dual parallel input jacks on the back.

I'm asking \$50 per cabinet and sold as a set. I live in Marshalltown Iowa so shipping would be VERY EXPENSIVE to say the least.

These are really nice cabinets and really need a good home. Contact me if interested. Thanks.
