I have a vintage Kustom single keyboard organ that is in need of repair. Ultimately I want to restore the instrument including the tuck and roll, but for now would settle for repair. I know that it is missing or has broken a few of the little springs that complete the connection for the different tones. I believe the reverb is not working.

I would like to find someone near Rockford, IL (Madison, WI, Chicago, Peoria, IL, Etc.) The unit is too large to ship but I am willing to move it within 150 miles or so.

Please contact me at Tomas.miller@ymail.com if you know of anyone.
