Can someone give me measurements on their K100C-8 4x10? My Kustom K100C-8 4x10's are in storage, so I can't get to mine to measure them. The reason I ask is a vintage Kustom cover has come up that is approximately 30 1/2 X 20 1/2 X 14.....thanks.

That cover sounds like it would fit a 2x12 cab. The K100-8 4x10 amp is 24x30 by maybe 10" in depth. If you count the number of T&R that are 2" will give you the size, my amp is 15 T&R tall and 12T&R wide.
