Hi,

I have 4 empty cabinets for consideration. 2 are teal green and 2 are ruby red. They were used as props for movies as I understand it. I believe they are set up to hold 2X10" speakers and a tweeter/piezo.

They can be customized so you can load with bigger speakers. (12" 15") That will be yours to do. There is a cut out for what seems like it may have been used to slip in an amp head. The black grill is really cool and looks solid!

There are no input jacks or wheels. These cabs are really sweet. One cab has a small tare but nothing really to get crazy about.

I will send photos upon request only to those in the LA area as I will not ship. I am about 1 hour from Los Angeles, California.

email: gozlant@aol.com

Thank you.

I'm looking for a red cabinet. Do you still have them?

Bob
