---

Hi folks - I have a 1971 Kustom K150-4 head and two columns (one is a clone), that I am selling. I'm not doing gigs anymore and someone could use these I presume. The 4 speaker columns have two 8in midrange Kustom speakers and two 8 in woofers, all upgraded to handle more head room. The speakers in each are identical and there is a crossover in the boxes that can be bypassed. Naugahyde Tuck N Roll is in really good condition. I have had this setup since the 80s and used it for my keyboard, DJ and guitar, as well as mics. Pretty versatile and punchy amp. PM me for pictures and a short vid.
