I just acquired a Kustom, black tuck & roll amp and was wondering if somebody here could tell me when it was built.

MODEL: K25C-2 SN: 56721

Thanks in advance for any info.

Greetings!

Your amp was built between July and Sept 1970.

Why?the print add material did not even come out until 5/70 when these model amp first became available from what I have determined.
