Hi All,

I'm new to the board. I just got a truckload of amps.

Included were several Kustom amps: heads (100s, 200s, franks), cabinets, combos (2x10 and 4x10). I don't plan on keeping all of them. Let me know what you're looking for and I can check to see if I have it. All of the amps are black except one head and piggyback that is blue.

I also have a "very special" K200 guitar, and an embroidered Kustom stool.

Thanx,

Johnny

Looking for two of the smaller charcoal sparkle PA columns. I think there were 4 x 8's in them.

Those would be the 595-PA cabinets.

Hi, I was wondering if that Kustom K200 guitar is a K200A, B or C. I believe the K200A was the one with the Bigsby Tail Piece. Regardless of type a,b or c about how much you asking? Actually I would only be interested in the "a" type w/tremolo tail piece. The catalogue on this web site shows the three types. They remind me of Rickenbacher guitars. Anyway thanks for your help.

Hi Johnny:
I'm looking for a 250-4 set up. . .head &/or speakers. The 250-4 is circa 1972 with full effects and a four position illuminated control pedal and wah/wah pedal!

I have a complete (except wah-wah pedal) 4-12G-4 that worked well when I put it in climate controlled storage 4-5 years ago. Its the black tuck and roll. Let me know if you're interested. I'm in central New Jersey.

Everything is sold except a 4x10 100 combo cab that I'm not willing to ship.

Hi Johnny:
I'm looking for a Kustom 250-4 amp with or without speakers (it's the one with full effects compliment)

I still have a black tuck and roll 250-4 (or 4-12G-4) in New Jersey that works great and has everything EXCEPT the wah wah peddle.
