I need a cord hook for left side of K200B-1 to wind the power cord on. Anybody have one or a similar replacement suggestion? I've looked at ever vacuum cleaner cord hook on the internet and nothing is close.

Thanks,
Clay

Closer would be one for guitar amps...

Not "the one" but closer. looking at mine, it looks more like a generic wall hook.... it could very well be one that was in production at the time.

There is one currently listed on ebay for \$15. It was still there this morning.
