Hey, y'all, I just scored some good replacement bass speakers for a 212B on EBay. Someone is selling 16 ohm 12" neodymium speakers (I believe made by Eminence) that were supposed to go in Genz Benz Uber Quad ported cabs. They sound really good in the 212b to my ears. They took an offer of $75 each with free shipping. Now for the bad, I had to grind off a bit of the top of the aluminum frame to fit the bottom speaker in the cab.

With 8 mounting bolts that will not be a issue!
