I've got a bunch of Kustom heads that I've decided to sell, but just don't like the idea of shipping. Did it for years, with too many problems. I live in Scotia, NY. Here's what I have.

1) Kustom J595 "Frankenstein" Charcoal Sparkle head in really nice condition. Unfortunately, I've probably got more into it than it would sell for. I bought it on eBay a couple years ago for way too much money, it was advertised as great working condition. When I got it, it had very little output power, so I took it to Parkway Music in Clifton Park, and they gave it a go-over. Replaced all small electrolytic caps, output transistors & voltage regulator, replaced all transistors in 2nd channel along with many resistors. Cleaned jacks & pots, installed a 3-prong AC cord. Doesn't have a tag in the back with model or date. Sounds great now, to the tune of \$250.....

Asking \$350.

2) Kustom K200B1 Bass Head, Blue Sparkle. This is the one I would like to keep the most, great shape, rare color. Everything works fine.

Asking \$250.

3) Kustom K200-5 PA Head, Teal Sparkle, sounds great with guitar or bass too! I've used it as a bass head, adding a touch of reverb really enhances the sound. Four channels, each with volume, bass, treble & reverb, with two speaker outs in the back. Everything works great, every now & then the power light is intermittent.

Asking \$225.

4) Kasino Concert PA Head, similar to the Kustom 200 heads. Kasino was manufactured by Kustom in the 70's. Sounds great with guitar and bass, too! Four channels, volume, bass, treble & reverb on each. Model is the U200P, 100 watts RMS. Includes cover in okay shape, the amp itself is beautiful!

Asking \$225.00
