Black with very good naugahyde. Everything works. Missing some of the silver liners for the knobs. Cab is probably part of a p.a. system?? 1-15" speaker, 1 15" bullhorn. May have been chopped at some point?

Makes great sounding rig. Input jack on cab needs attention, intermittent.

Prefer local pickup, Shelton, WA 98584 area. (West of Seattle).

Asking \$400 for the head.

\$500 for the pair.
