If anyone has a Kasino "Little Joe" head or half-stack and would like to sell, just let me know. It's a dream amp of mine, and if you'd like to work out a price, just PM me.

Thanks to everyone who replied. I am currently no longer searching for the amp, but if you have any interesting info on it, please feel free to let me know. I'm very interested in the Kasino line in general and I'd like to know everyone's thoughts on the amps themselves.
