Here is a very cool amp by Kasino, which were manufactured by Kustom back in the '70s. It's a Kasino "Natural Bass" amp with matching 1-15" speaker cab. In great condition, built like a tank. Head was serviced by Parkway Music, sounds great and is loud!! 75 watts R.M.S., solid state. Controls are Volume, Drive, and THREE bass controls!! :) They actually are low, medium & high tone controls, but supposedly more tuned to bass frequencies. Has a new Eminence 15" Legend speaker, replacing an old Peavey non-original speaker.

Priced right at $400. Local pickup only, in Scotia, NY.
