Hey guys not sure if this is Ok in this group but I just got done repairing a Kustom 200. In the process I came across a good supply of new old stock of RCA 40410 and 40409 transistors complete with attached heat sink. I will not need the amount that I have but I figure maybe someone on this board has a use for them for repairs. Would be willing to sell some if anyone is interested.

Yes, how much before shipping for 2 of each?

Please pm me.

Thanks in advance!
