I have a vintage late 60's early 70's tuck and roll Kustom 2 X 15 speaker cabinet that has some tears in the speaker grill fabric. Looking for original vintage speaker grill fabric so I can replace my damaged one.

Would even be interested in an old 2 X 15 tuck and roll cabinet that I can use to remove the grill face board and fabric. I dont care about the tuck and roll quality. Just interested in the good quality speaker grill fabric.

As long as you do not need the 1971 and later cloth that has some silver strips in it then Mojotone has a vintage Fender black cloth that will work for you.
