I am trying to figure out when my Kustom charger amp was made.

Here is some of the details.

I appreciate any help you can offer.

model# 28-B
Serial# 92650

I come up with between July and December of 72 when the amp left the Womb, but after Aug or late summer it could be considered a 73 model.
To nail it down any tighter you would need to pull the chassis and look at he date codes on the amps pots.
