The Kustom family grew Tuesday when I added a kool little 1x15 combo with (I think) 65 WRMS. Commonly called a Big K, (referring to the huge "K" in Kustom on the front) it's all original including the April 1978 Rola speaker. Shows minor wear and functions properly. High and low inputs, volume, bass, treble with a bright pull, and something called voicing. Not quite sure exactly what that is, but will soon find out. A nice anniversary (7/7/74) present to myself for being such a great husband! :lol:
