I have a vintage K200 tuck and roll 2X15 bass speaker cabinet.

Looking to purchase two of the round tuning ports to replace the damaged ones on my cabinet.

Also have a tear in the original speaker cloth and looking to replace it with vintage speaker cloth.

Hope someone has spare parts they would like to sell or point me to where I can find these items.

Thanks!!

I actually have a complete 2-15 baffle with good cloth but no ports. Asking \$45 plus shipping
