Looking for a used handle for my K150 amp. I have looked at the new replacement handles on ESTY, but was hoping to get a used rusty looking one to match my other one.
The one I have has the plastic piece missing and is wrapped with duct tape.
Thanks.

Why don't you just buy a new one and leave it outside for two months or so?

You would be having to pay for shipping either way,be it a new one or old, right?

Of course I bet Esty would sell you 2 new ones so they would then match !?
